# Infinity wall~

An infinity wall, also known as an **infinity curve** or **cyclorama**, is a curved wall typically used in photography, videography, and film production. It's designed to create a seamless, continuous background without any visible corners or edges, giving the illusion of infinite space.

The wall curves smoothly from the vertical to the horizontal plane, forming a seamless transition between the wall and the floor. This curvature eliminates any harsh lines or shadows that would normally be created by traditional corners, allowing photographers and filmmakers to capture subjects against a clean, uniform background.

## Prices

Infinity wall (1 hour) ~ RM120  
Infinity wall (2 hour) ~ RM240  
Infinity wall (4 hour) ~ RM432  
Infinity wall (8 hour) ~ RM768

# Partial Space A~

Discover the serene elegance of **Partial Space A**—our meticulously curated studio corner designed for creators and visionaries. Featuring light wood parquet flooring that adds warmth underfoot, this space is illuminated by a generous wash of natural light from a large window, casting a vibrant glow across the pristine white wall. Ideal for those who appreciate a clean, uncluttered environment to bring their visions to life.
